Re: GN Docket No. 09-191; WC Docket No. 07-52; WT Docket No. 12-4

Dear Ms. Dortch:

Today, Christopher Libertelli, Colin Bortner and the undersigned of Netflix Inc. met with Austin Schlick and Daniel Kirschner, both of the Office of General Counsel, as well as Sean Lehv, William Dever, Chris Killion, and other bureau staff, and Dr. Henning Schulzrinne, Chief Technology Officer, to discuss the FCC's Open Internet rules and related matters.

Netflix reiterated its publicly-stated view that broadband caps should be applied fairly to all online video sources or eliminated entirely. We also referred to a technical discussion¹ of the manner in which video bits are delivered to the Xbox platform on Comcast's network.

Please do not hesitate to contact us if you have any further questions.
